can define an atmosphere and explain how it creates a greenhouse effect.

1. __________________________
2. __________________________
3. __________________________
4. __________________________

can explain the difference between a rotation and a revolution.

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________

can list and explain the sequence of events related to the formation of the solar system.

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________

can provide an explanation of how gravity impacts one's weight.

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________

can explain the relationship between a planet's orbit and its "year."

1. __________________________
2. __________________________
3. __________________________
4. __________________________

Students must initial the answer they give you after you write it down.
