Your Age on Other Worlds

http://www.exploratorium.edu/ronh/age/index.html

Directions: Working in groups (3-4 students), go to the above internet site. Once you are at the site, you should read the “To Do & Notice” section and follow these directions. After completing the activity, consider the following:

- On which planet would your age be the least?
- On which planet would your age be the greatest?

When done exploring your weight, read the section titled “The Days (and Years) of Our Lives” towards the bottom of the page.
