Multiple Intelligences, Learning Styles & Study Skills - Assignment

The purpose of this assignment is to identify and describe all aspects of you as a learner: your current study habits, your strengths as they relate to the multiple intelligences, your learning style(s), and new possibilities when it comes to studying. You will accomplish this by creating a video, song, book, poster, or some other means (approval required) of displaying the information you learned about yourself after completing the MI, LS, SS Student Reference Packet. It is important to include the items listed below.

### Study Habits/Techniques

- Identify your current study habits/techniques. This section should include all aspects of how you study. You should consider:
  - a. What study techniques do you use?
  - b. Where do you study?
  - c. When or what time do you study?
  - d. Do you get assistance from people? How?

### Multiple Intelligences

- Consider the nine multiple intelligences you read about from pages 3-23 in the Student Resource Packet. Choose a minimum of two that fit you best and provide some personal examples for why you believe they are your strengths. Be sure to look at your multiple intelligences inventory/survey to help you complete this part.

*Example: After looking over the Multiple Intelligences Survey and my multiple intelligence pie, I realized that the bodily kinesthetic, or body smart, intelligence is one of my strengths. This makes sense to me because I play on many different sport teams and I usually do pretty well when competing against other teams.*

## Learning Style(s)/Preference(s)

- Consider the three learning styles/preferences you read about from pages 24-32 in the Student Resource Packet. Out of the three, describe the ones that fit you best and provide some personal examples for why you believe they apply to you. Be sure to look at your learning style(s) inventory/survey to help you complete this part.

*Example: After looking over the Learning Style(s)/Preference(s) Survey, I realized that I have a visual learning preference. Usually, when I am learning in class, I like to see many pictures of what the teacher is trying to explain to me. For example, when I was learning about the cell, I really started to understand the parts when the teacher gave me a diagram.*

## Potential Study Skills/Techniques

- Describe at least three possible study skills/techniques that you can try this year, and describe why these would be beneficial, especially when considering what you discussed in parts two and three. You should use pages 37-47 of the Student Resource Packet to help generate some ideas.

*Example: I will try to draw pictures of the different things because I have a visual learning strength and it will benefit me to draw and see things.*
