Scientific Processes – Open Response Question 1

Upon entering his science class, Jeff was provided with the items below. His teacher proceeded to tell him and his classmates to determine the volume of the irregularly shaped object.

Graduated  
Cylinder

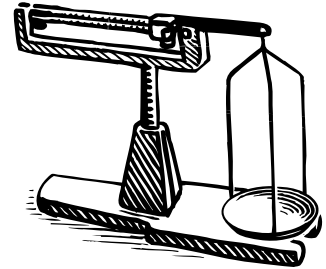

Ruler

Access to  
Water

Thermometer

Triple Beam  
Balance

- List the materials that Jeff would use to determine the volume of the irregularly shaped object.
- Explain, in detail, how Jeff would figure out the irregularly shaped object's volume.
