The Structure of Living Things – Open Response Question 1

A mushroom is a member of the Kingdom Fungi. Members of Kingdom Fungi are unique because they digest their food outside their bodies and then absorb the nutrients.

- a) Name two other Kingdoms of living organisms.
- b) Give one example of an organism that is classified into each Kingdom you described in part a.
- c) For each Kingdom that you selected, describe two characteristics that are used to classify organisms into that Kingdom.

It may be helpful to put your answers to parts a, b, and c in a chart/table
