

Name: _____ Section: _____

You Be the Teacher

Every quarter you will have the opportunity to earn extra credit points by teaching a lesson to your classmates. Since this is no easy task, you will have the opportunity to work with one other student. I will assist you as you prepare and teach your lesson as needed. Once you request to do this assignment, I will inform you about the topic to be taught.

You must then:

- Research the assigned topic
- Develop a lesson plan (according to the sample lesson plan format)
- Develop activities to be used
- Develop a quiz (w/ answers)
- Prepare a PPT. Presentation with the appropriate information
- Teach the lesson to the class

In order to earn the extra credit points, you must successfully complete all of the above. Remember, I will assist and guide you with all of the components necessary for the successful completion of this assignment. It will probably take around one to two weeks to accomplish all of the required work for this assignment, so it is important that you are truly interested in taking on such a challenging task. If you are dedicated, you will find that the experience will be worthwhile, enlightening, challenging, and fun.

IMPORTANT: Due to time constraints, this assignment will be offered on a “first come first serve basis.” Also, this assignment must be completed within four weeks of the end of the marking period.
