## METHOD OF STUDY

It will be necessary for you to create a **NEW** Method of Study for this upcoming test. You can use the same study method/technique (index cards, create your own test w/answers, etc.), but please do not try to hand in the same method of study that you have already received a grade on. It may be beneficial to check off the topics above as you incorporate them into your Method of Study.

**The test will be challenging, but fair and I am confident you can do well if your best efforts are put into your preparation. Be sure to use all accessible resources (notes, handouts, website resources, etc.).**
