## NJ – ASK 8 Competition

*“Let the games begin!”*

As you all know, NJ – ASK 8 testing is just around the corner and soon you will never have to hear about it again. For this final NJ – ASK 8 prep activity you will all work diligently and cooperatively for a few classes in an attempt to thoroughly prepare yourself. In randomly assigned groups, you will be required to come up with forty questions (**AND ANSWERS**) for chapters 1 through 10 in the GEPA prep book. Basically, this means four questions per chapter. These questions should **NOT** be taken directly from the books. You must read through the material and make up your own question. Each group’s final set of 40 questions and answers should be typed and given to the teacher prior to the competition. Also, all of your questions and answers should be grouped according to chapter. If you complete your questions early, any remaining time should be used to continue reviewing the material in the GEPA prep book and preparing for the competition.

The competition that will commence after you create your questions will be similar to the NCAA tournament, where there are three different regions of competitors (Team 8-1, Team 8-2, Team 8-3, Team 8-4) and the winners of each region will compete against each other. The sectional competition will take place in the classrooms, on the computers, and the finale (inter-regional competition) will be in the cafetorium or media center.

This activity will result in a grade, thus it is important that all students take an active role and put effort into creating their questions. Remember that the ultimate goal of this activity is to prepare for NJ – ASK - 8.
